## Simplicity Squared

It's estimated that we spend 75% of kitchen time at or near the sink. That's a lot of togetherness. Therefore, your sink choice should not be an afterthought. This sink certainly isn't. In keeping with the contemporary trend in kitchen styling, Franke has introduced a line of under-mount sink designs that have geometric clarity with straight lines and tight radius corners. The sink features one large compartment for suspending a drain or middle sink for rinsing and draining. **Model KBX 120-43 is \$955. Franke Consumer Products, [www.frankeconsumerproducts.com](http://www.frankeconsumerproducts.com)**

## Sweet Home Carolina

Add instant romance and southern charm to your home with a gas lantern from Carolina Lanterns, even if you're not from the Carolinas. Available as wall-mount gas or electric, post mount gas or electric, and hanging gas or electric, the lanterns are built to order, and can be fitted for indoor or outdoor use. Custom built in the style of antique gas lights that once graced the homes of New Orleans and historic Charleston, SC, the handcrafted, traditional gaslights are built to last. **Shown is the original Charleston lantern, for about \$299 each. ## Warm Your Soul

Imagine stepping out of a warm and relaxing shower to an even warmer towel to keep the chill out. Towel warmers are becoming a staple of home décor. Mr. Steam's complete line of towel warmers allows you to warm your towel in your home bath or spa. Stylish and functional, the towel warmers compliment bath, spa and exercise room areas with designs and finishes that work well with both contemporary and traditional décor. They are available in a variety of wall, floor and pivoting models and for electric heating or hot water heating systems. **\$500-\$1,100 depending upon style and finish.
