## MR.STEAM'S® NEW CU DIGITAL 1™ CONTROL GENERATES STEAM-ON-DEMAND®

**LONG ISLAND CITY, N.Y. (March 2010)** – [Mr.Steam®](#) is releasing an added superior product to its line of commercial steam generators with the innovative CU Digital 1™ Control. Enabling Steam-On-Demand®, the Digital 1™ consistently maintains a pre-selected room temperature, saving energy and reducing costs.

“The CU Digital 1™ is an inclusive product designed with hospitality management in mind,” said Charles Monteverdi, president of Mr.Steam. “After setting the desired temperature, the CU Digital 1™ takes over from there, not allowing fluctuations of more than a single degree. It really is all about consistency, comfort and control.”

The CU Digital 1™ utilizes minimum energy for maximum heat - *every time*. The highly advanced product has a tight-bandwidth, allowing management to maintain the steam room temperature within very tight tolerances. Management enjoys the benefits of low maintenance while club members enjoy full comfort.

The CU Digital 1™ Control is easy to install in conjunction with a Mr.Steam CU Generator and has a high contrast digital face for simple readability. Mr.Steam® Generators contain ASME pressure vessels and comply with cULus requirements for low-pressure operation, outstanding durability and safety.
